"Sustainable and naturally grown coffee is produced on a farm with shade trees and no chemical inputs. It conserves resources, protects the environment, produces efficiently, and enhances the quality of life for farmers and society as a whole." [Click here to learn more about 'shade tree' coffee]

**Hemp Coffee**  
 Incredibly Tasty & Delicious

HempUSA.org has discovered a supplier who has perfected a process of blending roasted hemp seeds with organic coffee beans to produce a premium, full flavored Hemp Coffee.

Even diehard coffee drinkers will enjoy this full bodied coffee with the unmistakable nutty flavor of hemp seed.

**Nutritional Information on HEMP COFFEE**

**Not too many coffees are beneficial to the health of the human body!!**

Regular caffeinated coffees that contain many additives and are genetically modified are no longer natural the way God made them and are highly acidic for the body and are not beneficial

**Carbohydrates: 18%**

Any of a group of organic compounds that includes sugars, starches, celluloses, and gums and serves as a major energy source.

**Total Fat: 30%**

The total fat comprises of all three fats combined  
 The bodies most concentrated form of energy !!  
**Saturated**  
**Monounsaturated**  
**Polyunsaturated**

**Protein: 18%**

contains carbon, hydrogen, oxygen, nitrogen, and usually sulfur and are composed of one or more chains of amino acids. Proteins are fundamental components of all living cells and include many substances, such as enzymes, hormones, and anti bodies, that are necessary for the proper functioning of an organism. They are essential in the human diet

Hemp Videos & Information

25% separately Toasted Hemp Seed and 75% separately Roasted Guatemalan Dark Roast Coffee Beans and then ground together for aroma and taste. A highly energized cup of coffee which is unlike all other coffees. The 25% mixture of naturally grown hemp adds a vibrational frequency not found in other coffees.

Many of our customers have raved about how it does not cause palpitations of their heart or make them jittery or give them headaches, we now have many past coffee drinkers drinking this tasty healthy Hemp Coffee from years of abstaining. What makes this a special mix is it's a shade tree grown Guatemalan Non GMO bean that is beneficial for your health and the environment allowing for a natural habitat for bird migration. Why not have a coffee that's good for you and tastes great and also benefits the environment.

**This coffee may appear to be expensive, but it is well worth it!**

**"I love the Hemp Coffee."**

Dear **HEMPUSA.ORG**,

I cannot tell you enough how much I appreciate you're products. I love the Hemp Coffee. Not only does it taste good, but I don't get the wired side effects that regular coffee has. When I drank regular coffee I always felt like I was having a heart attack and now after trying out Hemp coffee I have zero side effects and I don't have the dreaded digestive issues that I usually do when I drink regular coffee. Another reason I like Hemp products is that there are no gmo's. I highly recommend you're products and I look forward to my next order with you.

Sincerely,

Justin (Portland Oregon)

**"I most particularly enjoy the Hemp Coffee!"**

Hi **HempUSA.org**,

Just wanted to touch bases to let you know the package arrived.

Everything is really excellent! I most particularly enjoy the Hemp Coffee! I am allergic to caffeine (it makes me dizzy to the point of falling over) so this is a god sent! And (I think) it is actually detoxing me from the last caffeine attack I had!

What a relief!

I am off to buy a baking tin so I can try baking some hemp bread!

Have a question for you: I read that hemp fiber is used in France for making concrete bricks. Do you happen to know where I could purchase that type of fiber in bulk? A friend is building a resort in the high mountains and needs a sturdy, light weight building material.

And we need to talk about distribution of your products here through New Zealand.

Thanks again!

Charlie
