GLOBAL FAMINE

Your Preparation Is Imperative To Your Survival

"The US Department of Agriculture has predicted that global corn stocks have fallen to a 33-year low of just 52 days of consumption, while global wheat stocks are at their lowest level in at least 47 years at 57 days."

Try these delicious **Summer Hemp Protein** recipes from **HempUSA.org** for a delicious, nutritious and sustainable start to your day. [\[click here\]](#)

Dear **HempUSA**,

I was distinctly stronger this week. It seemed like I could come up with the ability to do "the more", instead of the "just get by" amount of energy at work. I wish I could express and explain how I have known and recognized that I just did not have the extra that it takes to be the best that I so desired to be. What frustration, what inner humiliation what disappointment at my own performance I have felt. Just think of how many children in America are experiencing these same feelings, and may not be able to express that they know something is not right, but they can't quite identify what is wrong. In my eyes good nutrition is a very serious subject, with more depth than I believe people realize. I personally think that there is a connection between a healthy body and character; therefore, nutrition in the body of Christ is essential in order for us to be like Jesus on this earth. This is my opinion. Thanks for your products.

Patricia

Micro Plant Powder

Understanding Micro Plant Powder

For All Birds, Small & Large Animals

the flavor of the seeds and makes it easier to chew and does not affect the enzyme or nutritional value. It also makes the seed non-viable, so sterilization is not required like other seeds that cross the border into America.

Our 50% Hemp Protein Powder

Our proprietary sifting process of the seeds allows us to bring the protein level up to 50% which is the highest of all protein powders. Please do not confuse other hemp flours with our heavy cake protein powder. We also have an approximate 12% oil content in the powder which makes it concentrated and densely nutrient.

Hemp Boosts the Immune System & Increases Energy Levels

Hemp is the highest vegan source of Edestin, a simple protein that is responsible for the natural and acquired immune system. Hemp contains live enzymes that help you digest your food, increase your energy, boost your immunity and help your body function at its best.

Hemp Detoxifies the Body & Reduces Junk Food Cravings

Hemp is high in the natural antioxidants Vitamin E, Vitamin C and chlorophyll. In addition, Hemp is a whole food containing complete and cholesterol-free protein. Proper protein intake is important in balancing our blood sugar, thus reducing cravings for sugar and other quick energy junk foods.

Hemp Burns Fat & Builds Muscle

Hemp is recognized by the World Health Organization as having a perfect 3:1 balance of Omega 6 to Omega 3 Essential Fatty Acids for optimum health. These fats stimulate the body's natural thermogenic system which actually burns fat. The Essential Fatty Acids in Hemp also help muscle recovery and growth.

Hemp is Easy to Digest & Non-Allergenic

Hemp does not contain gluten and is free of the enzyme inhibitor found in soy and other legumes and grains which prevent protein absorption and typically cause gas, bloating and other digestion problems. In addition, there are no known allergies to hemp.

Our Hemp Protein Powder is 50% Protein!

Genesis 1:29

God also said, "Look, to you I give all the seed bearing plants everywhere on the surface of the earth, and all the trees with seed-bearing fruit, this will be your food."

Genesis 47:13

And there was no bread in all the land; for the famine was very sore, so that the land of Egypt and all the land of Canaan fainted by reason of the famine.

Genesis 47:15

And when money failed in the land of Egypt, and in the land of Canaan, all the Egyptians came unto Joseph, and said, Give us bread: for why should we die in thy presence? for the money faileth.

Genesis 47:17

And they brought their cattle unto Joseph: and Joseph gave them bread in exchange for horses, and for the flocks, and for the cattle of the herds, and for the asses: and he fed them with bread for all their cattle for that year.

Genesis 47:18-20

When that year was ended, they came unto him the second year, and said unto him, We will not hide [it] from my lord, how that our money is spent; my lord also hath our herds of cattle; there is not ought left in the sight of my lord, but our bodies, and our lands:

Wherefore shall we die before thine eyes, both we and our land? buy us and our land for bread, and we and our land will be servants unto Pharaoh: and give [us] seed, that we may live, and not die, that the land be not desolate.

And Joseph bought all the land of Egypt for Pharaoh; for the Egyptians sold every man his field, because the famine prevailed over them: so the land became Pharaoh's.

Ezekiel 34:29

And I will raise up for them a plant of renown, and they shall be no more consumed with hunger in the land. Neither bear the shame of the heathen any more.

Ezekiel 7:19

They shall cast their silver in the streets, and their gold shall be removed: their silver and their gold shall not be able to deliver them in the day of the wrath of the LORD: they shall not satisfy their souls, neither fill their bowels: because it is the stumblingblock of their iniquity.

Psalms 33:18-19

Behold, the eye of the LORD is upon them that fear him, upon them that hope in his mercy; to deliver their soul from death, and to keep them alive in famine.

Psalms 37:19

They shall not be ashamed in the evil time: and in the days of famine they shall be satisfied.

High performance protein powder; easily digestible and able to replace all protein sources. Packed with live enzymes, EFAs, vitamins, minerals and other co-factors to aid absorption. Enhancing performance for all the demands of modern life; excellent for the body and for the planet.

- Delicious, convenient, live, whole food product
- Complete raw plant protein including all the essential amino acids
- Optimal ratio of omega 6 to 3 essential fatty acids with 2-4% GLA
- Antioxidant factors with tocopherols, tocotrienols and chlorophyll
- Easily digested, non GM, gluten-free, and dairy-free
- 0.00% THC

Hemp Protein Powder is 50% Protein

- Easily digestible with 65% globulin edestin and 35% albumin protein, more than any other plant. These substances aid digestion and assimilation, and are in a form similar to that found in blood plasma.
- Contains natural antioxidants that prevent free radical damage and create an aerobic oxygenated body.
- Improves natural resistance, circulation, transfer/adjustment rate of oxygen to cells, organ function, waste removal, haemoglobin formulation, energy levels, metabolic recovery and tissue repair.
- Maintains the proper functioning of cell membranes.
- Supports cardiovascular health and maintenance.
- Balances all systems creating homeostasis and reduces unhealthy cravings.
- Modulates hormone balance and cycles -- PMS, menopause, perimenopause.
- Nourishes

Dear HempUSA.org

I wanted to write you guys and let you know how happy we are with your product. My wife, Kaytlin and I are in our mid 20's not suffering from any diseases, and were living pretty healthy before we heard about Hemp.

My wife is 8 months pregnant, and being such we both were putting on the pounds at a steady rate. For her that is good, but for me not so much. We are having a home-birth and have visited with our midwife numerous times over the past months. During these visits our midwife performs tests Kaytlin for

nutritional data and other information.

She was amazed at our most recent visit, a few day's back, about Kaytlin's obvious nutritional improvements based on what she had seen the last time. She explained to us how pleased she was with the test and complimented Katylin for her diligent "good eating" habits. We then shared with her our secret about how we'd discovered Mr. James' products and that Kaytlin had started taking Hemp powder just before our previous visit, which was about a month and a half apart.

She knew about the benefits of Hemp and encouraged her to keep using it daily. As far as myself, during that same period I shed 20 lbs without lifting a finger and haven't felt better in I don't know how long. Everyday I take two tablespoons for breakfast in my coffee, I take two at lunch in two glasses of water, and I eat some raw fruit/vegetable and maybe a piece of fish or any meat I might feel like eating at night.

It's amazing what we've saved on groceries and on little snacky foods, since that urge pretty much leaves you when you start taking hemp. If your out there wondering whether or not you should buy this product, trust me it is more than worth the money and you'll experience benefits almost immediately. Thanks again Tom and crew. Keep up the good work.

Mark and Katie

Our edible hemp seeds come toasted and available salted and unsalted. A great food for the health conscious person. Hemp seeds contain all the essential amino acids and essential fatty acids necessary to maintain a healthy, human life. No other single plant source has the essential amino acids in such an easily digestible form, nor has the essential fatty acids in as perfect a ratio to meet human nutritional needs. Available in 5 and 25 pound pails.

The hemp products are making me healthier

Dear HempUSA.org,

I was in pretty good shape anyway. I'm a contractor in Montana and I was always wearing down over the work year. I started eating the hemp powder and seeds regularly with every meal in drinks I concocted. Anyway, I have to say I'm alot less fatigued and seem to be able to work more steadfastly at work as well as concentrate better because I'm not wearing out as much.

The hemp powder and seeds are the only thing different I've eaten over the last year so I'm having to guess that's what's really helping me out physically. Thank you so much for the hemp products.

Jon D.

Native American Natural Healing hemp oil is available in 17 ounces and 1 gallon containers. This cold pressed hemp seed oil is a natural, unrefined hemp seed oil hand crafted in small batches to preserve the nutritional properties and quality of nature's most unsaturated oil. The perfectly balanced, polyunsaturated fatty acids, provide a nutrisudical packed composition that elevates this oil far beyond basic nutrition. This delicate oil, with a flavorful, nutty taste can be used in a wide range of recepies such as sauces, dips, spreads, and salad dressings or taken straight as a vitamin supplement. Reccommended daily intake is one to two tablespoons. Hebicide, pesticide, colesteroll, gluten and THC free.

HempUSA.org products are detoxifying my body like nothing else

Hello HempUSA,

I wanted to join the many people who are finding out that [HempUSA.org](#) products are so beneficial. I have had a very serious problem with constipation for most of my life. It was God who found this mess of a body and began to tell me by the spirit what to eat and how to prepare what I ate. I learned about raw foods, juices, and super foods. It was a process, and I faced some very difficult and trying experiences in the pursuit of my health. But God is so faithful if you refuse to quit, and I refused to quit. I am a person who is very sensitive; and many products that are suppose to be so wonderful, my body would reject them which left me wondering about me?! But I have found that what God makes is right, and a product that is as close to how God made it as possible is what works for people. I am not regretting this understanding at all. Somehow my body's acid alkaline balance has always been off when I eat the slightest amount of protein; and I simply did not know how to correct this except by an almost total alkaline diet at all times. I could not eat sweet fruit without feeling like I would get a sore throat, and I have not been able to eat grapes since 1986.

I purchased the [HempUSA.org](#) hemp protein powder, hemp seeds, and the oil, and have been using them, not in great quantities, for about a month or so. Something in my body's system is being balanced because I have been able to eat several cantaloupes, a watermelon, and even a medium bag of grapes which I have not been able to do for years and that is a serious change for the better for me. The [HempUSA.org](#) oil is wonderful and it seems to be causing me to crave more omega oils in my diet. When I sprinkle a teaspoon or two of hemp protein powder across my eggs, I am very satisfied and have a good energy level. I don't mean to gross anybody out but I am going to tell you that my bowel movements have been very dark and always sink to the bottom of the toilet bowl, which I know is an indication of toxic material leaving my body. I have been trying to achieve results like this for years, and I have tried many things as I know many people are these days.

[HempUSA.org](#) products are detoxifying my body like nothing else I have found. I am very thrilled about this development in my life, because I can tell my health is being greatly enhanced. I hope this testimony encourages people to give these products a try.

Hemp Soft Centers

Snack with it. Sprinkle it over food. Bake with it.

HempUSA.org is a distributor of Soft Centers hulled hemp seeds

Canadian grown whole hemp seeds are hulled (shelled) in our state-of-the-art hemp seed processing facility. We offer 5 pound pails and 20 pound cartons. Larger quantities available, please contact us for a quote.

The nutritional composition of hulled hemp seeds is exceptional providing an excellent source of essential fatty acids (36-39%), protein/essential amino acids (30-35%), carbohydrates, dietary fiber and an interesting array of vitamins and minerals.

HempUSA.org hulled hemp seeds have a flavorful "nutty" taste. Sprinkle them on pasta, salads, cereal and yogurt or use them in a variety of recipes including soups, sauces, baked goods, nutrition bars, and ice cream. Hulled hemp seeds are a nutritious and delicious snack - straight from the pouch!

We thank you for enjoying this healthy food !!!

"Sustainable and naturally grown coffee is produced on a farm with shade trees and no chemical inputs. It conserves resources, protects the environment, produces efficiently, and enhances the quality of life for farmers and society as a whole." [\[Click here to learn more about 'shade tree' coffee\]](#)

Hemp Coffee
Incredibly Tasty & Delicious

HempUSA.org has discovered a supplier who has perfected a process of blending roasted hemp seeds with organic coffee beans to produce a premium, full flavored Hemp Coffee.

Even diehard coffee drinkers will enjoy this full bodied coffee with the unmistakable nutty flavor of hemp seed.

Nutritional Information on HEMP COFFEE

Not too many coffees are beneficial to the health of the human body!!

Regular caffeinated coffees that contain many additives and are genetically modified are no longer natural the way God made them and are highly acidic for the body and are not beneficial

Carbohydrates: 18%

Any of a group of organic compounds that includes sugars, starches, celluloses, and gums and serves as a major energy source.

Total Fat: 30%

The total fat comprises of all three fats combined
The bodies most concentrated form of energy !!
Saturated
Monounsaturated
Polyunsaturated

Protein: 18%

contains carbon, hydrogen, oxygen, nitrogen, and usually sulfur and are composed of one or more chains of amino acids. Proteins are fundamental components of all living cells and include many substances, such as enzymes, hormones, and anti bodies, that are necessary for the proper functioning of an organism. They are essential in the human diet

Hemp Videos & Information

25% separately Toasted Hemp Seed and 75% separately Roasted Guatemalan Dark Roast Coffee Beans and then ground together for aroma and taste. A highly energized cup of coffee which is unlike all other coffees. The 25% mixture of naturally grown hemp adds a vibrational frequency not found in other coffees.

Many of our customers have raved about how it does not cause palpitations of their heart or make them jittery or give them headaches, we now have many past coffee drinkers drinking this tasty healthy Hemp Coffee from years of abstaining. What makes this a special mix is it's a shade tree grown Guatemalan Non GMO bean that is beneficial for your health and the environment allowing for a natural habitat for bird migration. Why not have a coffee that's good for you and tastes great and also benefits the environment.

This coffee may appear to be expensive, but it is well worth it!

"I love the Hemp Coffee."

Dear HEMPUSA.ORG,

I cannot tell you enough how much I appreciate you're products. I love the Hemp Coffee. Not only does it taste good, but I don't get the wired side effects that regular coffee has. When I drank regular coffee I always felt like I was having a heart attack and now after trying out Hemp coffee I have zero side effects and I don't have the dreaded digestive issues that I usually do when I drink regular coffee. Another reason I like Hemp products is that there are no gmo's. I highly recommend you're products and I look forward to my next order with you.

Sincerely,

Justin (Portland Oregon)

"I most particularly enjoy the Hemp Coffee!"

Hi HempUSA.org,

Just wanted to touch bases to let you know the package arrived.

Everything is really excellent! I most particularly enjoy the Hemp Coffee! I am allergic to caffeine (it makes me dizzy to the point of falling over) so this is a god sent! And (I think) it is actually detoxing me from the last caffeine attack I had!

What a relief!

I am off to buy a baking tin so I can try baking some hemp bread!

Have a question for you: I read that hemp fiber is used in France for making concrete bricks. Do you happen to know where I could purchase that type of fiber in bulk? A friend is building a resort in the high mountains and needs a sturdy, light weight building material.

And we need to talk about distribution of your products here through New Zealand.

Thanks again!

Charlie

"Sustainable and naturally grown coffee is produced on a farm with shade trees and no chemical inputs. It conserves resources, protects the environment, produces efficiently, and enhances the quality of life for farmers and society as a whole." [Click here to learn more about 'shade tree' coffee]

Hemp Coffee
 Incredibly Tasty & Delicious

HempUSA.org has discovered a supplier who has perfected a process of blending roasted hemp seeds with organic coffee beans to produce a premium, full flavored Hemp Coffee.

Even diehard coffee drinkers will enjoy this full bodied coffee with the unmistakable nutty flavor of hemp seed.

Nutritional Information on HEMP COFFEE

Not too many coffees are beneficial to the health of the human body!!

Regular caffeinated coffees that contain many additives and are genetically modified are no longer natural the way God made them and are highly acidic for the body and are not beneficial

Carbohydrates: 18%

Any of a group of organic compounds that includes sugars, starches, celluloses, and gums and serves as a major energy source.

Total Fat: 30%

The total fat comprises of all three fats combined
 The bodies most concentrated form of energy !!
 Saturated
 Monounsaturated
 Polyunsaturated

Protein: 18%

contains carbon, hydrogen, oxygen, nitrogen, and usually sulfur and are composed of one or more chains of amino acids. Proteins are fundamental components of all living cells and include many substances, such as enzymes, hormones, and anti bodies, that are necessary for the proper functioning of an organism. They are essential in the human diet

Hemp Videos & Information

25% separately Toasted Hemp Seed and 75% separately Roasted Guatemalan Dark Roast Coffee Beans and then ground together for aroma and taste. A highly energized cup of coffee which is unlike all other coffees. The 25% mixture of naturally grown hemp adds a vibrational frequency not found in other coffees.

Many of our customers have raved about how it does not cause palpitations of their heart or make them jittery or give them headaches, we now have many past coffee drinkers drinking this tasty healthy Hemp Coffee from years of abstaining. What makes this a special mix is it's a shade tree grown Guatemalan Non GMO bean that is beneficial for your health and the environment allowing for a natural habitat for bird migration. Why not have a coffee that's good for you and tastes great and also benefits the environment.

This coffee may appear to be expensive, but it is well worth it!

"I love the Hemp Coffee."

Dear HEMPUSA.ORG,

I cannot tell you enough how much I appreciate you're products. I love the Hemp Coffee. Not only does it taste good, but I don't get the wired side effects that regular coffee has. When I drank regular coffee I always felt like I was having a heart attack and now after trying out Hemp coffee I have zero side effects and I don't have the dreaded digestive issues that I usually do when I drink regular coffee. Another reason I like Hemp products is that there are no gmo's. I highly recommend you're products and I look forward to my next order with you.

Sincerely,

Justin (Portland Oregon)

"I most particularly enjoy the Hemp Coffee!"

Hi HempUSA.org,

Just wanted to touch bases to let you know the package arrived.

Everything is really excellent! I most particularly enjoy the Hemp Coffee! I am allergic to caffeine (it makes me dizzy to the point of falling over) so this is a god sent! And (I think) it is actually detoxing me from the last caffeine attack I had!

What a relief!

I am off to buy a baking tin so I can try baking some hemp bread!

Have a question for you: I read that hemp fiber is used in France for making concrete bricks. Do you happen to know where I could purchase that type of fiber in bulk? A friend is building a resort in the high mountains and needs a sturdy, light weight building material.

And we need to talk about distribution of your products here through New Zealand.

Thanks again!

Charlie

Dear HempUSA.org,

I ordered the sampler pack a while back and just wanted to let you know how pleased I am. I like the hemp coffee, grind the seeds a little and sprinkle them on cereal, and take the oil by mouth. I have given information on your web site to others in the Las Vegas Lawman Group and recommended your products highly.

Thank you for great products.

Harold of Las Vegas

The Highest Quality Stevia You Have Come To Trust!

What is stevia?

A shrub native to Paraguay, used for over 1500 years by the native Guarani Indians. A herb with an abundance of positive effects. The whole leaf contains numerous phytonutrients and trace minerals and is much sweeter than sugar with out negative effects. It can sweeten any drink with no calories, no carbohydrates, no tooth decay and is diabetic safe. Stevia nourishes the pancreas and does not raise blood glucose levels, making it not only safe for diabetics but also beneficial. Since there are no calories or carbohydrates, stevia is an excellent weight loss aid. It does not contains the negative side effects reported with the use of artificial sweeteners including aspartame. Adding stevia to your diet on a regular basis, it has also been reported that it can help minimize hunger sensations, cravings for sweets or fatty foods, aide in digestion, decrease hypertension without effecting normal blood pressure, stabilize blood glucose levels, shorten recovery time from cold and flu and aide in addictions to tobacco and alcohol. When used in toothpaste or mouthwash, cavities and gum disease is reduced due to its antibacterial properties.

Bio Ball – THE NO DETERGENT BIO BALL

- Cleaning is impressive
- Antibiotic cleaning
- Fabric and body Softener
- Eliminates Detergent
- For use in Spas-Bathing-and Washing machines
- Softens water while raising the PH
- Inexpensive and lasts for years
- New exciting money saving Bio Ball

Compare to other competitors and see the quality difference and why we use Genuine Ceramic Pellets weighing 110 Grams per Bio Ball and changing the water from Acid to Alkaline water in seconds.

This incredible Bio Ball contains powerful Far Infra Red Rays that break down the water molecules into smaller clusters and activates them to release dirt and bacteria from clothing, bodies and other surfaces. The Bio Ball increases molecular motion with penetration unlike regular water. It also radiates negative ions to soften the surface tension so that dirt can easily wash away without detergent.

The Bio Ball raises the PH of all water and keeps the pH spectrum throughout the cleaning process without the use of chemicals/detergents and greatly helps to remove oil, dirt and stains from clothing and other surfaces.

Eliminates chlorine by de-gassing the water and increasing the cleaning strength of the water.

Detoxer Foot & Body Pads:

For thousands of years people have been detoxing naturally but today it has become even more important as we are exposed to well over 400 synthetic chemicals and other man made toxins which are absorbed by the average individual that cause blockages in flow. These blockages may add to a series of problems like digestive discomfort, headaches, depression, allergies, skin irritations and much more (the list is endless and the effect is different for everyone. Our products have been proven to help to detoxify the body. Since we stand upright 2/3 of the time all the toxins fall to the feet and we must be able to purge the toxins from the feet and these pads help in the detoxification process.

We at Worldproductsnow encourage our customers to detox in as many ways as possible to bring health back to the body for clearer thinking, healthier skin, mental awareness and spiritual peace.

Water Ionizers - Jupiter Science Melody JP 104

HempUSA.org has been selling this type of water machine for years and wants others to benefit from this wonderful water system !!!

The 'Melody' Water Ionizer is Jupiter Science Company's newest model, the first of a completely new range. It is the first Water Ionizer in the world that has Bio Stone, which generates negative ions as soon as it makes contact with water. It activates water to assist in support of our metabolism, and circulation of blood.

It also assists with skin diseases and actually helps to increase metabolism though better conductivity. In addition, Tourmaline generates far infra red that enlarges capillaries, purifies water, and acts like a 'supercharger', assisting the water alkalizer to ionize and alkalize.

This unit has it all: stylish upright look, great filtration, great range of output, ease of operation and installation, and the pedigree and security of dealing with Korea's largest and longest established water Ionizer manufacturer.

The Jupiter Science Melody Model JP 104 for

[Add to Cart](#)

1,395.00 USD

Please call for special pricing! Mention this web site!

It also assists with skin diseases and actually helps to increase metabolism though better conductivity. In addition, Tourmaline generates far infra red that enlarges capillaries, purifies water, and acts like a 'supercharger', assisting the water alkalizer to ionize and alkalize.

- Tourmaline has an immediate and powerful effect on water in the filter.
- Surfactant effect (makes water wetter) increases by 101% = 12x wetter water

- Reduces cluster size
- Enhances taste
- Assists alkalization
- Minimizes water odor
- Increases DO (Dissolved Oxygen)

Tourmaline has been researched and found to activate animal & plant metabolism. It incorporates the very latest polymer ion separation technology, which is patented by Jupiter Science. It makes Jupiter Science ionizers capable of the best range of pH and negative antioxidant ions of any system, making this unit at least comparable to any Water Ionizer on the market.

It easily outperforms Japanese imports, which have been perceived as the best for many years. However, led by Jupiter Science International, Korean manufacturing standards rose sharply in the 1990s to challenge Japanese quality. Jupiter Science has now surpassed Japanese quality and set a new standard which Japanese manufacturers are now trying their best to mimic. The **Melody is also the first water purifier, in the world, to always give alkaline water - even when it is in cleaning mode.**

With 9 levels to choose from, the ideal personal ionization level is immediately obtained. The JP104 'Melody' comes with a faucet diverter and is easily installed in minutes to any sink in the house or office. It also has a built-in flow control on the front of the unit so it can be installed directly to the water source; **one of the only water ionizers on the market to offer this.**

Features

Feature for feature, this system is the undisputed "Rolls" of water purifying systems.

- Post cleaning for perfect water always
- Four levels of alkaline water.
- Four levels of acid water, including super-oxide.
- Pure water (non-ionized)
- 0.01 micron 3-stage filtration plus BioStone Infrared technology
- Large 5-plate latest technology polymer ion plated platinum coated titanium ionizing plates (est. life 20 yrs, latest Japanese University technology)
- Stainless steel output spout
- Integrated computer circuitry throughout
- Wipe down one-touch control panel
- Coral calcium port
- Unique post-operation automatic, silent cleansing for extended lifespan
- lowest Voice confirmation every time you choose another output pH
- Filter usage Liquid Crystal display indicator
- Easy 1-minute change filter compartment
- Optional ability to connect direct to mains and operate under mains pressure
- **1/4 inlet tube; better visually in your kitchen that the 3/8" tube on other models.**

Explanations of Melody JP104 Features

Automatic Reversed Cleaning Every water ionizer in the world, worth investing in, has an inbuilt cleansing routine. This ensures that any particles that may find their way past the filter are not 'caught' in the ionizing cells. The method is simple - the magnetic field in the chamber is reversed so that any mineral that has energetically adhered to a Titanium plate is repelled and flushed away. It's a clever system, and assures the user of a long, trouble free life, but it isn't perfect - except on the Melody. Before, during the cleaning cycle, the water flow was changed from alkaline to acid. Now, for the first time ever, the Melody delivers only alkaline water from the alkaline sprout. No more waiting even when your Melody is cleaning!

Extra levels of pH means greater choice for you and other users. It also allows you to take advantage of higher alkaline pH levels when cooking, to make greens greener, rice fluffier and coffee and tea more flavorful.

Varying levels of acid water output means you can avail yourself of all of many ways you use acid water; for your skin, for your plants, for your home hygiene and more.

Pure water selection can be important if you or visitors are on an acid-based drug regimen. Although alkaline micro clustered water helps the absorption of many supplements and reduces the dosage requirement, it may affect drugs that are designed to be taken with acid or neutral water.

0.01 micron 3-stage filtration plus BioStone Infrared means that not only is your water filtered of impurities to the very finest possible degree, but it is also preconditioned by reduction of surface tension for maximum negative ion production during ionization. The 3-stage filter also adds coral calcium to the water automatically. There is no substitute for a quality, replaceable filter. Imagine what your sink would be like, after a year, if you only used hot water to clean it!

Large 5-plate polymer ion plated platinum coated titanium ionizing plates. Some older design water ionizers still use stainless steel plates, which were found to emit nickel. Jupiter Science and Toyo Water of Japan collaborated to produce the finest system of polymer bonded platinum coated Titanium plates. These totally overcome this leaching problem and radically enhance the lifespan of the plates, which are the heart of your Melody system.

A stainless steel top spout may seem a small thing until you actually use and ionizer without one. Some ionizers output their ionized water via plastic hose back to the tap and out. The kitchen tap is one of the most bacteria-laden zones in the kitchen. Furthermore, a top-mounted spout allows you to pour water anywhere; a real boon when the sink is full of dishes, or when you want to fill a large bottle.

Integrated computer circuitry means CHOICE. Some units on the market try to make out that they are ionizers but do not use computer controllers. This means that you are restricted by the pH of your incoming water and not able to adjust to the optimal pH for your own needs. Computer circuitry also allows hot water and low pressure protection to be an automatic function.

Post-operation Auto Cleanse System means that every time you use your 'Melody', it will undertake a silent, automatic cleanse of the Titanium ionizing plates in the heart of its system. This auto clean ensures continued maximum performance by removing any particles that may have gotten through the filter into the ionizing chamber.

Voice confirmation means you are alerted to any change of pH. This safety feature can also be reduced in volume or turned off once you have learned how to use the ionizer properly. it's like a 'learner-driver instructor' on board.

Filter Usage Liquid Crystal display means you can see at a glance how much filter

life you have left. Although not an actual measure of filter life, it's a handy indicator of longevity that you can use to assess when to order a new filter.

Optional ability to connect direct to mains means you really don't even need your Melody attached to your tap. With a 1/4" hole in your bench, it can attach direct to your mains. All you need do to have a glass of water is to turn it on at the convenient front flow valve.

1/4 inlet tube: better visually in your kitchen than the 3/8" tube on other models. Why? Smaller is less obvious, and even though you may not want to connect your 'Melody' to the mains, and hiding the inlet hose completely, the 1/4" tube looks far better than the bulky 3/8" hose on other models.

5 Year Limited Warranty - call for full details

This unit has it all: stylish upright look, great filtration, great range of output, ease of operation and installation, and the pedigree and security of dealing with Korea's largest and longest established water Ionizer manufacturer.

HempUSA,

I just purchased this product from your web site and I was wondering about suggestions for the amount to be taken each day and the best way to ingest it. Should it be mixed with purified water? Sprinkled on food? Please let me know. In the mean time, I am going to mix some with water. Thanks for all your good work.

Thomas D.

Hello Thomas, take three heaping tablespoons a day. morning noon and night in any liquid you choose, I use water because it is virtually tasteless and odorless. God bless, please call me with your results !!

HempUSA.org

HempUSA,

Took 4 tablespoons full this morning for a jump start. It just felt right. I feel better already. God Bless YOU for taking care of everyone's health!

Thomas D.

How Micro Plant Powder Works

MICRO PLANT POWDER has a very strong negative charge. As these millions of cylinders move through the stomach and digestive tract, they attract with a negative charge the positive toxins in the body and absorb bacteria, fungi, protozoa, viruses, endotoxins, pesticide and drug residues, E-Coli, and heavy metals, molds and mildews, and mycotoxins. These are trapped inside the cylinders and passed out of the body. In addition, any larger parasites that happen to be in the stomach of the digestive tract are destroyed by the MICRO PLANT POWDER without destroying the flora in the stomach and keeping the vitamin B-12 and vitamin K balance. All of these activities result in a much healthier body with less sickness. We often hear the phrase "I just feel better" with our MICRO PLANT POWDER users. This better feeling comes from all the TOXINS being removed from the body and by giving your immune system the "jump start" it needs.

Hemp Videos & Information

MICRO PLANT POWDER has a negative charge and is a microscopically hard substance. On the hardness scale where diamonds are a 9, MICRO PLANT POWDER is a 7. This is very important, because as those millions of microscopic negatively charged cylinders pass through the small and large intestines, they "scrub" the walls of the intestines and colon. After only a few weeks of taking MICRO PLANT POWDER, the intestine wall is no longer coated with mucus and mold but it is CLEAN!! The advantages of this are several:

1. Regular bowel movements This is the #1 comment everyone makes about MICRO PLANT POWDER
2. Healthier Colon. This is especially important as we get older. A clean healthy colon keeps away polyps, cancers, and ulcers. Today, many are spending thousands of dollars to get colonics to do the same thing that MICRO PLANT POWDER does.
3. Many users report increased energy and needing less sleep. This is a result of all the food and nutrients that are taken in being better absorbed into the blood stream. With a coated colon many nutrients never get absorbed.

When MICRO PLANT POWDER gets absorbed into the blood stream. As these cylinders move throughout the body they clean and breakup the buildups in the blood vessels. MICRO PLANT POWDER also helps to destroy bad fats. Everyone that we know that is taking MICRO PLANT POWDER has lowered their cholesterol by 40-50 points. Everyone is also amazed at how their high blood pressure goes down. As the MICRO PLANT POWDER eventually dissolves into the blood, the many benefits of the silica content are realized.

1. Sore joints and ligaments feel better
2. Skin clears up (acne-age spots-psoriasis)
3. Hair and nails are stronger and grow faster
4. Stronger teeth and gums
5. Healthier respiratory tract--less coughing
6. Menopause has less symptoms
7. Healthier urinary tract

The benefits of silica/ MICRO PLANT POWDER are many. In today's grains, there is actually a shortage of silica. Years ago the silica found in our food was adequate, but with today's hybrids and depleted soils, and chemicals it has only about 1/3 of the silica needed in our food. MICRO PLANT POWDER is a simple and inexpensive way to get the silica your body needs to be able to absorb your minerals now.

Testimonials about Hemp Products

[Like I said, I don't know where to begin...](#)

Hi HempUSA.org,

We have spoken a couple of times via phone a few months ago when I placed an order.

First I wanted to tell you I just last week had my dental revision done. Though I am still trying to take it easy and recover well I do feel much much better about it all. I can't even begin to thank you for opening my eyes up and changing not only my health but also my awareness to my surroundings. Like I said, I don't know where to begin so much has happened so quickly. Though it was a little expensive during these hard financial times, I know it was worth it because I am worth it.

I hope all is well and once again thank you thank you thank you for making me aware!

cheers,
Krista, New York

[I found the hemp products and at a banner on Alex Jones' Infowars:](#)

Dear HempUSA.org,

I would first like to tell you a little about myself. I was born and raised in Tallahassee, Florida in 1965. I am 42 years old and have lived a rather healthy and active life. I am a carpenter by trade and a general contractor by profession. I have always been very active in the outdoors. I feel closer to GOD; (my Creator) when I am out in contact with the environment and nature. I believe that everyone should experience the wonders of all creation.

Shortly after my marriage, my wife and I began to experience some unusual health problems. This led us on a journey to try to find some natural and organic health supplements that offered to support better health and correct the ailments and health problems that we were experiencing. My wife is a nurse at a hospital and she knew quite a few physicians that offered her medical advice. One of these doctors told her that her symptoms sounded like that she might have Lyme disease. She proceeded to setup a test to get tested for Lyme and prompted me to be tested also. When the results came back we were both positive for Lyme. Continuing our search and options for treatment, we continued to search for natural, organic products that would help promote a healthy body and immune system so our bodies could learn to fight this disease. We were having some neurological symptoms along with our health problems. The doctors seemed to think that I was experiencing elevated stress from the marriage and the Lyme. So the doctor decided that I should take some SSRI; (Klonopin, Transzene, and Effexor). These drugs seemed to help after first to ease the stress, but the side effects and neurological side effects became a nightmare. The stress of this spiraling cycle of events took a tremendous toll on our marriage and we divorced in December of 2005.

Right after the divorce I experienced a nightmarish meltdown – (Withdrawal) from the psychotropic medication. I had to get some help in monitoring and reduction of these medications. I knew that I needed to find another solution to the health and neurological problems I was having so I turned to the internet to research and find some solutions. At the time I had a renter at a house I owned and he noticed my condition and he did something that really seemed very unlikely for someone in the state that I was in at the time. He opened me to the 911 / Truth movements. I went from one rabbit hole to another. Little did I know that this would be a blessing in disguise? It helped me to channel my focus away from myself and my problems to greater things that are going on around me and the people of the world. He introduced me to the Alex Jones website infowars.com and numerous other internet websites that offer alternative information and news of all sorts.

This is how I found the hemp products and at a banner on Alex Jones' infowars and Mike Chambers' truthnetradio I saw the website for Hempusa.org. I decided to order the hemp products. Little did I know that my life would not be the same? The hemp powder, seeds and oil have transformed my body and mind in every way. This hemp has helped my body to correct problems with my digestive system, alleviated body pains and stiffness, and I don't know if it has cured me of the Lyme disease. But I sure don't feel any of its symptoms. I have and continue to research this product and it is only proving to me to be the best healthy whole super food. This hemp seems to communicate with the body to guide and direct the body to health and healing. I have

also noticed a considerable weight loss, more energy, and almost no stress and anxiety. I am also free from the SSRI's - (Psychotropic Meds). I have been recommending this product to everyone I know and to my family. My Mother and Father are also taking the product and are also getting great benefits. I am not suggesting that this is a miracle cure product; However, I believe that hemp will harmonically balance and help the body to correct itself. I suggest that anyone who is looking to improve their health that they seriously consider taking hemp. Go to Hempusa.org and make a friend with Thomas James, he has a wealth of knowledge.

Sincerely,

-Jared Gandy

What Hemp has done for me:

Hi HempUSA.org,

For over ten years I have had serious digestive issues, primarily Irritable Bowel Synrome. I have had ELISA tests which showed sensitivity to gluten, wheat and oat and some dairy foods. Not allergies full blown but when I choose to eat processed foods I will suffer. Well, even when eating a very stringent diet I have had weeks of time in which I suffered diarrhea and cramps everyday and dehydration as a result. I mean for ten years I had diarrhea!

Not only that but some days I would describe it to someone who does not understand, imagine having a flu everyday for years. Well, since I have been eating hemp regularly for about three months it is virtually gone. I have normal elimination for the first time in years. I am feeling more energetic and gradually notice inflammation decreasing in my muscles and joints too. For me this is huge, I used to worry about someday needing to have part of my colon removed if I could not recover. Now even if I eat something with gluten, which is rare, I don't get a horrible reaction.

I feel that is because my body is recovering and able to handle things not so good for me. I still have progress to make, Danny said you recommend eating the seeds more than just once per day, so I will add that too. If I get hungry between meals, I take a spoonful or two of oil instead and that is also helping me. I am very grateful we found you and to your work spreading the good news about how hemp can heal us. I will keep you posted!

-Meghan

A thought about the Hemp Seeds:

Dear HempUSA.org,

After two weeks of eating the unsalted hemp seeds, I must say, they have improved my mood, decreased the amount of my headaches, and Im going to the bathroom regularly. Not that it's a bad thing because its not. I have more energy, feel more motivated and I noticed that the seeds do go a long way. I don't have to eat a lot of them. Just a handful is good enough for me like once every hour. The hemp powder I mix into a smoothie so I am getting my protein and my calcium in one serving. My two year old even enjoys it!

I have since referred friends and family and hope that they try this miracle food. Since I am in the health care profession, I have done research on the benefits of hemp to present to my workplace for our patients with metabolic disorders and Stage I-II pressure ulcers.

-Chelley

Side Effects from the use of Hemp Products:

Dear HempUSA.org,

As the operator of Truth Radio I was given the opportunity to advertise Hemp products. After assuring myself that the product had nothing to do with drugs and that it was on the market legally, I agreed to trade product for advertising. Sadly, those days I was in a "down" period in my life.

My wife had open heart surgery in May and we have been through stressful weeks. Frankly, I just was not feeling as well as usual. Through the years, I have had to watch carefully to be sure my body is aware that life is not just input, but that we have to have output too. (Am I being polite about this?)

Well, after a couple weeks using the hemp oil and seeds, let me tell you -- WOW -- you cannot believe how clean my "tubes" are. I have NEVER ever found the process of elimination to be so effective. Anybody should be smart enough to know that if the body is clean, the person will feel better. I do feel better. I feel more healthy. My former energy has returned.

There are side effects as well. I find I have less desire or urge to consume stuff that's bad for me.

Healthy

Energy

Means

Pleasure

-Richard

Hemp Products battle Crohn's Disease:

Dear HempUSA.org,

Last December 2007 I was diagnosed with Crohn's Disease. The diagnosis really got me down, and when I learned that its cause is unknown and there there is no known cure I became ever more desperate for some kind of relief from the stabbing pains or some kind of energy booster (Crohn's really saps your energy) And the answer I found was in HempUSA's products.

I found that nearly all Crohn's patients have problems digesting seeds! So I tried the hemp powder from HempUSA.org and man am I glad I did!

The powder digests completely before reaching my area compromised with Crohn's, so I receive its full benefits. And wow am I feeling those benefits! Lately, I have only been ingesting 1-2 teaspoons of hemp a day and I really have noticed a boost in energy and a lack of pains related to my condition. I am planning on upping my hemp powder and oil intake as a result.

I most highly recommend this product for all Crohn's Disease patients and for all of you lucky people without it as well. I have tried to find the powder and oil locally and they go for triple the price you can get them at HempUSA.org! This website is an awesome buy (plus no shipping or taxes!) and leaves nothing to be questioned. Buy hemp from HempUSA.org and you will not regret it!

Hemp user for life signing out,

- Dustin Ronald White

HEMP SMOOTHIES / SHAKES AS MEAL REPLACEMENTS

Smoothie drinks are a rapidly growing trend among natural food consumers. Whenever we're too busy or just simply not in the mood to cook, we can blend a smoothie for a healthy meal substitute.

Hemp protein powder contributes three important components to a nutritional smoothie—protein, fiber, and carbohydrates. Lifestyle coach Cameron Shayne says, "Not only is hemp protein one of the richest sources of complete protein in the plant kingdom, it also features plenty of fiber, vitamins, and omega-3 and -6 essential fatty acids (EFAs)." Hemp protein powder is compatible with low-carbohydrate diets as only 2 percent of its 12 percent carbohydrate content is sugar.

Hempseed oil is another excellent ingredient for a nutrient-rich smoothie. It is a source of gamma-linolenic acid, an omega-6 EFA, and the omega 3s alpha-linolenic acid and stearidonic acid. Nutritionists recommend our daily intake of omega-3 EFAs to be about 2 to 3.5 grams, which we can derive from two tablespoons (30 mL) of hempseed oil.

Look for hemp protein smoothie recipes at HempUSA.org. Let's face it—our bodies need good nutrition, regardless of our schedules.

Hemp Videos & Information

Frequently Asked Questions

1a) What are the differences between hemp and marijuana?

There are many. The most important is that Hemp contains no psychoactive compound, Tetrahydrocannabinol (THC) that Marijuana does. This is why hemp is legal and marijuana is not. The plants are considered 'distant' cousins but are distinct separate and different plants.

b) Will I get "high" eating HempUSA.org's products?

No, eating our products will not get you "high". HempUSA.org's hemp foods & oils are made with a variety of hemp seed that are free of THC.

c) Will I test positive for a urinalysis test if I eat HempUSA.org's products?

No. As stated above, HempUSA.org's hemp foods & oils have 0.00% THC so eating them will not cause a false positive on a urinalysis test.

2) Are all HempUSA.org's products naturally grown without herbicides and pesticides?

Yes, all of our products are naturally grown without herbicides and pesticides.

3) Is your hemp genetically modified?

No, HempUSA.org's hemp seeds are original source and contain no Genetically Modified Organisms (GMOs).

4) What are HempUSA.org's hemp foods & oils good for?

HempUSA.org's hemp foods & oils have many beneficial properties and biomolecules that promote health and wellness. Hemp Seed Oil has one of the highest concentrations of polyunsaturated fats and an ideal balance of the omega-6 and omega-3 Essential Fatty Acids. Hemp contains 54.4% linoleic acid (Omega-6), 18.3% linolenic acid (Omega-3), 3-4% gamma-linolenic acid (GLA) and 1-2% stearidonic acid; and as such is one of only 4 oils to do so and is the most economical one of these oils. Hemp's ratio of Omega 6 to Omega 3 fatty acids is about 3.75:1 which mirrors the primitive diet man evolved on for 2.5 million years. This ratio of fatty acids has been shown to prevent and even reverse Alzheimers disease in animal models and humans (Yehuda et al, Int J Neurosci, vol 3, 141-9, 1996). Polyunsaturated fats have been shown to be beneficial for the prevention of heart disease, especially omega 3 fatty acids. Hemp contains phytosterols (B-sitosterol, stigmasterol, campesterol) in high concentration (one of the highest) which are known to reduce cholesterol. In fact, the US, FDA allows the claim that plant sterol and stanol esters reduce the risk of heart disease by lowering cholesterol levels. Hemp contains chlorophyll which is anti-carcinogenic. The phytosterols have been shown to be anticarcinogenic as well (Phytosterols as Anticancer Dietary Components, Awad and Fink, Recent Advances in Nutritional Sciences, 2000, pp 2127-2129). Hemp is a source of complete protein offering 17 different amino acids including all of the essential ones. This protein is relatively high in cysteine and methionine which are two sulfur bearing amino acids that are usually lacking in vegetable proteins. For more information please go to our website for more nutritional information.

5) How do I use HempUSA.org's hemp foods & oils?

Suggestions for uses range from smoothies to salad dressings, and recipes for the products can be found in the recipes section of the HempUSA.org's web site at HempUSA.org and in the informational brochure that is available on our website HempUSA.org

6) I've tried other hemp foods and none taste as good as the HempUSA.org's brand. Why?

HempUSA.org's deals with farmers and processors that grow, process and package all of our own products. Products are processed and packaged using modern equipment that is dedicated hemp seeds, powder, soft centers, oil, and coffee. Our processors and farmers continue to develop proprietary processing techniques that set HempUSA.org's products apart from others on the market.

7) How much Shelled Hemp Seed should I eat in a day?

3-5 Tablespoons for an adult. 3-5 Teaspoons for a child or what you feel comfortable with.

8) How much hemp seed oil should I eat in a day?

1-2 Tablespoons for an adult. 1-2 Teaspoons for a child.

9) What do you mean when you say that hemp foods & oils are safe for long term consumption?

HempUSA.org's hemp foods & oils are balanced food sources of protein, carbohydrates and essential fatty acids. This means that if you eat HempUSA.org's products over a long period of time, you won't run the risk of setting your body out of balance.

10) How long is the shelf-life of the products?

HempUSA.org's Hemp Seed Oil and Hemp Seed Butter have at least a one year shelf-life and the Shelled Hemp Seed, Hemp Protein Powder and Hemp Protein Powder with Fiber have a 1-2 year shelf life. You can extend the shelf life by keeping the products in the freezer, or we highly recommend our customers to vacuum package there hemp foods for long shelf life for storing purposes.

11) Should the products be kept refrigerated?

This is totally up to the consumer, it is recommended to refrigerate the oil once opened. Once the product seal of the oil is broken, the oil should be refrigerated for a much longer shelf life.

12) Can I freeze your products?

Yes. HempUSA.org's hemp foods & oils can be frozen. They say the oil can last indefinitely in the freezer.

13) How does HempUSA.org's Hemp Seed Oil compare to flax seed oil?

Here are some distinctions which separate HempUSA.org's Hemp Seed Oil and flax seed oil;

1. Hemp Seed Oil has a 3.75:1 Omega-6 to Omega-3 ratio (considered optimal). Flax Seed Oil has a 1:4 Omega-6 to Omega-3 ratio.
2. Hemp Seed Oil is a direct source of GLA, Flax Seed Oil is not.
3. Hemp Seed Oil is a direct source of Sterodonic Acid, Flax Seed Oil is not.
4. Hemp Seed Oil contains chlorophyll, Flax Seed Oil does not.
5. Hemp Seed Oil has a pleasant nutty flavor, Flax Seed Oil does not.

14) What allergens does HempUSA.org's hemp foods & oils contain?

The top nine allergens are peanuts, milk, wheat, soy, fish & seafood (including crustaceans), eggs, tree nuts, sesame seeds and sulphites. HempUSA.org's hemp foods & oils do not contain any known allergen including these nine.

15) What allergens are processed at the plant where HempUSA.org's hemp foods & oils are made?

None. HempUSA.org's processors have a dedicated facility where no other ingredients touch our machinery. We do not carry an allergen disclaimer on our labels because there is no chance for contamination.

16) Why is HempUSA.org's hemp seed oil so green?

HempUSA.org's Hemp Seed Oil contains a high amount of chlorophyll. Due to low temperature processing the chlorophyll is not destroyed. Chlorophyll is a rich green color thus our hemp seed oil is green and triple filtered and cold processed and is the reason our oil is crystal clear and dark green compared to other oils.

17) Can I cook with HempUSA.org's hemp foods & oils?

HempUSA.org's products can be cooked with provided that the temperature does not go above 350 degrees F. Never use the oil for frying due to its high concentration of polyunsaturated fats but many customers have fried at a very low heat, again it is up to the consumer to be aware of using extremely low heat when using this method.

18) What makes your protein powder so special?

HempUSA.org's Hemp Protein Powder is 52% protein, 20% Omega 3, 6 & 9 and 13% fiber. It contains more protein than any other hemp protein powder on the market. We achieved this by removing fiber from our seed cake before milling into a heavy cake powder with a 12% oil content. Our cake powder is heavier and a very dense protein powder unlike most Hemp flours found in the stores today.

See what our powder, seeds and oil can do for you!

Hemp Videos & Information

How to Use Hemp Products

Hemp Powder uses:

Powder is eaten in many ways first I would say the most popular ways is to put it in a smoothie/milkshake with any kind liquid you choose, I personally use 18 ounces of organic milk a ripe banana and a heaping tablespoon of Hemp and blend it, it is delicious.

You can also bake with the protein powder, breads, muffins, pancakes etc..... It can be used in omelettes and soups and hot cereals of any kind. Many people eat it dry or mixed with just water we all have different taste buds. Another use is you can mix the protein powder with your favorite coffee it makes it taste incredibly smooth and delicious unlike any coffee you have ever tasted before.

How to use HempUSA Soft Centers:

Grind them into nut butter for use in sandwiches, hummus, tahini sauces, and salad dressings. Sprinkle them, plain or lightly toasted, on pasta, salads, cooked grains, and breakfast cereals. Use them to give body to soups, stews, sauces, and gravies.

Bake them into breads and pastries. Enjoy them in tofu and in nondairy milk, cheese and ice cream.

Add Soft Centers to breads, fish or meats, adding them at the very end to prevent the Soft Centers from overheating.

How to eat the seeds:

Put them in your mouth and crunch down on them it is called chewing the seeds, and then you digest them. You can also put them in a pepper grinder and sprinkle them on omelettes and fish or anything else you want.

Great for in between meals to kill the desire for junk food cravings.

How to eat the Hemp oil:

Recommended dosage is two tablespoons per day and one for children. Heart and Arterial conditions the recommended dosage would be higher. You may also use it on your salads.

Many people use the Hemp oil in their smoothies/shakes.

How to Store Hemp Products

Storing Hemp Foods:

The Powder, Seeds, Oil, Soft Centers, and the Hemp Coffee will store in a cool dark dry place for up to 1-1/2 to 2 years. The oil if opened is best kept in the refrigerator and for unopened containers you may store it in the freezer for an indefinite time period the oil does not freeze it gets much thicker and is in an animated state by freezing the atoms. All other hemp foods will be fine when kept in a cool dark dry environment.

These products are highly nutritious and very tasty so I must say in most homes the products do not last very long everyone loves the taste of these products.

VACUUM PACKAGING: Hemp Powder, Seeds, Soft Centers and Coffee

The Hemp products that are vacuum packaged will last up to 7 years without loss of nutrient value.

Vacuum packaging this product will remove about 99% of the oxygen from the bag that the food is stored in.

The plastic bags that are used to vacuum pack these products are heavy duty triple layer plastic bags that lock in freshness for the long haul.

All the food stored in these bags are water proof.

Coming soon from HempUSA - Vacuum Food Sealers!
