Testimonials about Hemp Products

Like I said, I don't know where to begin...

Hi HempUSA.org,

We have spoken a couple of times via phone a few months ago when I placed an order.

First I wanted to tell you I just last week had my dental revision done. Though I am still trying to take it easy and recover well I do feel much much better about it all. I can't even begin to thank you for opening my eyes up and changing not only my health but also my awareness to my surroundings. Like I said, I don't know where to begin so much has happened so quickly. Though it was a little expensive during these hard financial times, I know it was worth it because I am worth it.

I hope all is well and once again thank you thank you thank you for making me aware!

cheers,
Krista, New York

I found the hemp products and at a banner on Alex Jones' Infowars:

Dear HempUSA.org,

I would first like to tell you a little about myself. I was born and raised in Tallahassee, Florida in 1965. I am 42 years old and have lived a rather healthy and active life. I am a carpenter by trade and a general contractor by profession. I have always been very active in the outdoors. I feel closer to GOD; (my Creator) when I am out in contact with the environment and nature. I believe that everyone should experience the wonders of all creation.

Shortly after my marriage, my wife and I began to experience some unusual health problems. This led us on a journey to try to find some natural and organic health supplements that offered to support better health and correct the ailments and health problems that we were experiencing. My wife is a nurse at a hospital and she knew quite a few physicians that offered her medical advice. One of these doctors told her that her symptoms sounded like that she might have Lyme disease. She proceeded to setup a test to get tested for Lyme and prompted me to be tested also. When the results came back we were both positive for Lyme. Continuing our search and options for treatment, we continued to search for natural, organic products that would help promote a healthy body and immune system so our bodies could learn to fight this disease. We were having some neurological symptoms along with our health problems. The doctors seemed to think that I was experiencing elevated stress from the marriage and the Lyme. So the doctor decided that I should take some SSRI; (Klonopin, Transzene, and Effexor). These drugs seemed to help after first to ease the stress, but the side effects and neurological side effects became a nightmare. The stress of this spiraling cycle of events took a tremendous toll on our marriage and we divorced in December of 2005.

Right after the divorce I experienced a nightmarish meltdown - (Withdrawal) from the psychotropic medication. I had to get some help in monitoring and reduction of these medications. I knew that I needed to find another solution to the health and neurological problems I was having so I turned to the internet to research and find some solutions. At the time I had a renter at a house I owned and he noticed my condition and he did something that really seemed very unlikely for someone in the state that I was in at the time. He opened me to the 911 / Truth movements. I went from one rabbit hole to another. Little did I know that this would be a blessing in disguise? It helped me to channel my focus away from myself and my problems to greater things that are going on around me and the people of the world. He introduced me to the Alex Jones website infowars.com and numerous other internet websites that offer alternative information and news of all sorts.

This is how I found the hemp products and at a banner on Alex Jones' infowars and Mike Chambers' truthnetradio I saw the website for Hempusa.org. I decided to order the hemp products. Little did I know that my life would not be the same? The hemp powder, seeds and oil have transformed my body and mind in every way. This hemp has helped my body to correct problems with my digestive system, alleviated body pains and stiffness, and I don't know if it has cured me of the Lyme disease. But I sure don't feel any of its symptoms. I have and continue to research this product and it is only proving to me to be the best healthy whole super food. This hemp seems to communicate with the body to guide and direct the body to health and healing. I have

also noticed a considerable weight loss, more energy, and almost no stress and anxiety. I am also free from the SSRI's - (Psychotropic Meds). I have been recommending this product to everyone I know and to my family. My Mother and Father are also taking the product and are also getting great benefits. I am not suggesting that this is a miracle cure product; However, I believe that hemp will harmonically balance and help the body to correct itself. I suggest that anyone who is looking to improve their health that they seriously consider taking hemp. Go to Hempusa.org and make a friend with Thomas James, he has a wealth of knowledge.

Sincerely,

-Jared Gandy

What Hemp has done for me:

Hi HempUSA.org,

For over ten years I have had serious digestive issues, primarily Irritable Bowel Synrome. I have had ELISA tests which showed sensitivity to gluten, wheat and oat and some dairy foods. Not allergies full blown but when I choose to eat processed foods I will suffer. Well, even when eating a very stringent diet I have had weeks of time in which I suffered diarrhea and cramps everyday and dehydration as a result. I mean for ten years I had diarrhea!

Not only that but some days I would describe it to someone who does not understand, imagine having a flu everyday for years. Well, since I have been eating hemp regularly for about three months it is virtually gone. I have normal elimination for the first time in years. I am feeling more energetic and gradually notice inflammation decreasing in my muscles and joints too. For me this is huge, I used to worry about someday needing to have part of my colon removed if I could not recover. Now even if I eat something with gluten, which is rare, I don't get a horrible reaction.

I feel that is because my body is recovering and able to handle things not so good for me. I still have progress to make, Danny said you recommend eating the seeds more than just once per day, so I will add that too. If I get hungry between meals, I take a spoonful or two of oil instead and that is also helping me. I am very grateful we found you and to your work spreading the good news about how hemp can heal us. I will keep you posted!

-Meghan

A thought about the Hemp Seeds:

Dear HempUSA.org,

After two weeks of eating the unsalted hemp seeds, I must say, they have improved my mood, decreased the amount of my headaches, and Im going to the bathroom regularly. Not that it's a bad thing because its not. I have more energy, feel more motivated and I noticed that the seeds do go a long way. I don't have to eat a lot of them. Just a handful is good enough for me like once every hour. The hemp powder I mix into a smoothie so I am getting my protein and my calcium in one serving. My two year old even enjoys it!

I have since referred friends and family and hope that they try this miracle food. Since I am in the health care profession, I have done research on the benefits of hemp to present to my workplace for our patients with metabolic disorders and Stage I-II pressure ulcers.

-Chelley

Side Effects from the use of Hemp Products:

Dear HempUSA.org,

As the operator of Truth Radio I was given the opportunity to advertise Hemp products. After assuring myself that the product had nothing to do with drugs and that it was on the market legally, I agreed to trade product for advertising. Sadly, those days I was in a "down" period in my life.

My wife had open heart surgery in May and we have been through stressful weeks. Frankly, I just was not feeling as well as usual. Through the years, I have had to watch carefully to be sure my body is aware that life is not just input, but that we have to have output too. (Am I being polite about this?)

Well, after a couple weeks using the hemp oil and seeds, let me tell you -- WOW -- you cannot believe how clean my "tubes" are. I have NEVER ever found the process of elimination to be so effective. Anybody should be smart enough to know that if the body is clean, the person will feel better. I do feel better. I feel more healthy. My former energy has returned.

There are side effects as well. I find I have less desire or urge to consume stuff that's bad for me.

Hemp Products battle Crohn's Disease:

Dear HempUSA.org,

Last December 2007 I was diagnosed with Crohn's Disease. The diagnosis really got me down, and when I learned that its cause is unknown and there there is no known cure I became ever more desperate for some kind of relief from the stabbing pains or some kind of energy booster (Crohn's really saps your energy) And the answer I found was in HempUSA's products.

I found that nearly all Crohn's patients have problems digesting seeds! So I tried the hemp powder from HempUSA.org and man am I glad I did!

The powder digests completely before reaching my area compromised with Crohn's, so I receive its full benefits. And wow am I feeling those benefits! Lately, I have only been ingesting 1-2 teaspoons of hemp a day and I really have noticed a boost in energy and a lack of pains related to my condition. I am planning on upping my hemp powder and oil intake as a result.

I most highly recommend this product for all Crohn's Disease patients and for all of you lucky people without it as well. I have tried to find the powder and oil locally and they go for triple the price you can get them at HempUSA.org! This website is an awesome buy (plus no shipping or taxes!) and leaves nothing to be questioned. Buy hemp from HempUSA.org and you will not regret it!

Hemp user for life signing out,

- Dustin Ronald White
