Our Hemp Protein Powder is 50% Protein !

Hemp grown around the world remains a key crop with over 40,000 uses from food, feed, rope, oil, fuel, plastic, paper, building products and clothing. Every aspect of the hemp plant is utilized from its roots, stems, branches through to its leaves, buds and seeds. Hemp can be said to have a truly civilizing effect on people. As man further explores the plants versatility new facts and uses continue to unravel as hemp is grown around the world.

Hemp...

BOOSTS IMMUNE SYSTEM & INCREASES ENERGY LEVELS: Hemp is the highest vegan source of Edestin, a simple protein that is responsible for the natural and acquired immune system. Hemp contains live enzymes that help you digest your food, increase your energy, boost your immunity and help your body function at its best.

DETOXIFIES THE BODY & REDUCES JUNK FOOD CRAVINGS: Hemp is high in the natural antioxidants Vitamin E, Vitamin C and chlorophyll. In addition, Hemp is a whole food containing complete and cholesterol-free protein. Proper protein intake is important in balancing our blood sugar, thus reducing cravings for sugar and other quick energy junk foods.

BURNS FAT & BUILDS MUSCLE: Hemp is recognized by the World Health Organization as having a perfect 3:1 balance of Omega 6 to Omega 3 Essential Fatty Acids for optimum health. These fats stimulate the body's natural thermogenic system which actually burns fat. The Essential Fatty Acids in Hemp also help muscle recovery and growth.

EASY TO DIGEST & NON-ALLERGENIC: Hemp does not contain gluten and is free of the enzyme inhibitor found in soy and other legumes and grains which prevent protein absorption and typically cause gas, bloating and other digestion problems. In addition, there are no known allergies to hemp.

Our Hemp Protein Powder is 50% Protein !

HOW TO USE OUR HEMP PRODUCTS

HempUSA.org

How to use the hemp Powder:

Powder is eaten in many ways first I would say the most popular ways is to put it in a smoothie/milkshake with any kind liquid you choose, I personally use 18 ounces of organic milk a ripe banana and a heaping tablespoon of Hemp and blend it, it is delicious.

You can also bake with the protein powder, breads, muffins, pancakes etc.....

It can be used in omelets and soups and hot cereals of any kind.

Many people eat it dry or mixed with just water we all have different taste buds.

Another use is you can mix the protein powder with your favorite coffee it makes it taste incredibly smooth and delicious unlike any coffee you have ever tasted before.

How to eat the seeds:

Put them in your mouth and crunch down on them it is called chewing the seeds, and then you digest them.

You can also put them in a pepper grinder and sprinkle them on omelets and fish or anything else you want.

Great for in between meals to kill the desire for junk food cravings.

How to eat the Hemp oil:

Recommended dosage is two tablespoons per day and one for children. Heart and Arterial conditions the recommended dosage would be higher. You may also use it on your salads.

Many people use the Hemp oil in their smoothies/shakes.
