Our Hemp Protein Powder is 50% Protein !

Hemp grown around the world remains a key crop with over 40,000 uses from food, feed, rope, oil, fuel, plastic, paper, building products and clothing. Every aspect of the hemp plant is utilized from its roots, stems, branches through to its leaves, buds and seeds. Hemp can be said to have a truly civilizing effect on people. As man further explores the plants versatility new facts and uses continue to unravel as hemp is grown around the world.

Hemp...

BOOSTS IMMUNE SYSTEM & INCREASES ENERGY LEVELS: Hemp is the highest vegan source of Edestin, a simple protein that is responsible for the natural and acquired immune system. Hemp contains live enzymes that help you digest your food, increase your energy, boost your immunity and help your body function at its best.

DETOXIFIES THE BODY & REDUCES JUNK FOOD CRAVINGS: Hemp is high in the natural antioxidants Vitamin E, Vitamin C and chlorophyll. In addition, Hemp is a whole food containing complete and cholesterol-free protein. Proper protein intake is important in balancing our blood sugar, thus reducing cravings for sugar and other quick energy junk foods.

BURNS FAT & BUILDS MUSCLE: Hemp is recognized by the World Health Organization as having a perfect 3:1 balance of Omega 6 to Omega 3 Essential Fatty Acids for optimum health. These fats stimulate the body's natural thermogenic system which actually burns fat. The Essential Fatty Acids in Hemp also help muscle recovery and growth.

EASY TO DIGEST & NON-ALLERGENIC: Hemp does not contain gluten and is free of the enzyme inhibitor found in soy and other legumes and grains which prevent protein absorption and typically cause gas, bloating and other digestion problems. In addition, there are no known allergies to hemp.

Our Hemp Protein Powder is 50% Protein !
